

Abigail's Song/Gilad

Everybody's sleeping
Except for you and I,
Everybody's dreaming
It's getting late at night
I look into your eyes
You look into mine
I don't know what you're thinking
I really want to know
What goes on in your mind

Everybody's sleeping
The radio's on, Quiet.
"Three Little Birds" is playing
"Everything's gonna be alright"
First time we dance together
First time we are so close
And When I feel your breath
Sliding on my face
I love you a little more

Chorus:

And when you smile
You make me smile
And when you cry
You make me cry
Everything you need
I will do for you
My little darling girl
